POINT OF SALES WITH INVENTORY SYSTEM FOR MOON HEY HOTPOT AND GRILL

The POS with Inventory System is software designed for Moon Hey Hotpot and Grill. The system offers several modules, such as security, order creation, kitchen automation, maintenance, reports and analysis, inventory management, search, help, and about. The system is only accessible to authorized users within the company, ensuring that sensitive data and processes are protected. The order management module quickly handles customer orders, while the kitchen automation module transfers the customer orders to the kitchen. The inventory management module keeps track of the company's inventory. In the maintenance module, users can create backups, recover data, add new users to the system, and edit them as needed. The help and support module provides guides and FAQs for users to read and get assistance.

Hardware Specifications

POS System:

- Processor: AMD Ryzen 5 3600 4.2GHZ 6-Core 12-Thread
- Memory: G.Skill Ripjaws V 8GB 3200mhz DDR4
- Storage: Kingston NV1 NVMe PCIe M.2 500 GB SSD
- Display: 21-inch Full HD monitor
- Peripherals: Keyboard, Mouse, Barcode Scanner, Receipt Printer

Software Specifications

Operating Systems:

- Client OS: Windows 10 Home

Database Management System:

- DBMS: MySQL 8.0.35

Programming Language:

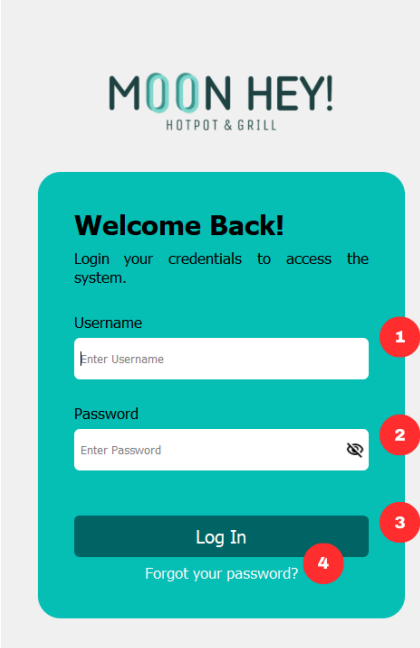

- Python 3.12.0

Development Tools:

- IDE: PyCharm for Python
- Version Control: Git (GitHub for repository management)
- Database Design Tool: MySQL Workbench

Software Guide (General)

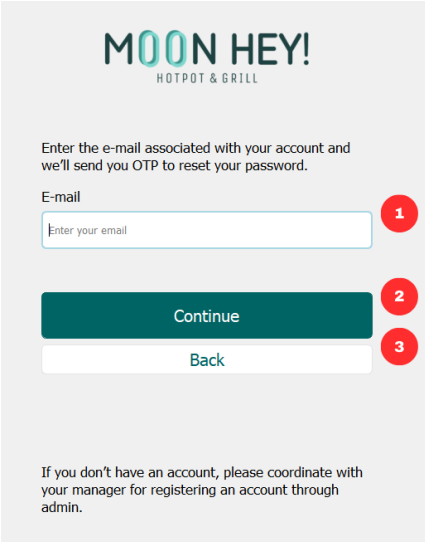

Login

The image shows a login interface for 'MOON HEY! HOTPOT & GRILL'. The interface is teal with white text. It features a 'Welcome Back!' heading, a login instruction, and two input fields: 'Username' and 'Password'. The 'Username' field has a placeholder 'Enter Username' and is marked with a red circle containing the number 1. The 'Password' field has a placeholder 'Enter Password', a password icon, and is marked with a red circle containing the number 2. Below the fields is a 'Log In' button, marked with a red circle containing the number 3. At the bottom, there is a link 'Forgot your password?' marked with a red circle containing the number 4.

1. **Input your assigned username:**
 - The user will input their assigned username in the text field
2. **Input your password:**
 - The user will input their password in the text field
3. **Click to login:**
 - After inputting the needed credentials, click “Log In” to access the system
4. **Click if password is forgotten:**
 - If you forgot your password, click “Forgot your password?” and it will send you to the forgot password screen

Forgot Password

The image shows a mobile app screen for 'MOON HEY! HOTPOT & GRILL'. The screen is titled 'Forgot Password' and contains the following elements:

- Logo: MOON HEY! HOTPOT & GRILL
- Instruction: Enter the e-mail associated with your account and we'll send you OTP to reset your password.
- Form: A text input field labeled 'E-mail' with a placeholder 'Enter your email'. A red circle with the number '1' is next to the input field.
- Buttons: Two buttons are located below the input field. The first is a dark teal button labeled 'Continue' with a red circle with the number '2' next to it. The second is a white button labeled 'Back' with a red circle with the number '3' next to it.
- Footer: A note at the bottom states: 'If you don't have an account, please coordinate with your manager for registering an account through admin.'

1. **Input your registered Email:**
 - The user will input their registered email address
2. **Click to continue:**
 - After inputting the email address, clicking “Continue” will send you an OTP to your email and it will send you to the OTP verification screen
3. **Click to go back:**
 - Clicking “Back” will send you to the login screen

OTP Verification

MOON HEY!
HOT POT & GRILL

OTP Verification
We will send you a one time password on this e-mail
ld.kirbble@gmail.com
2:55

Didn't get the code? Click to resend

Cancel Submit

If you don't have an account, please coordinate with your manager for registering an account through admin.

1. **Input the OTP verification code:**
 - The user will enter the OTP verification code that was sent into their email address
2. **Click to resend:**
 - The user can ask the system to resend another OTP verification code to their email address
3. **Click to submit:**
 - Clicking “Submit” will send you to the Reset Password screen
4. **Click to cancel:**
 - Clicking “Cancel” will cancel the process

Reset Password

PASSWORD RECOVERY

The image shows a 'RESET PASSWORD' form within a 'PASSWORD RECOVERY' section. The form has a title 'RESET PASSWORD' in bold. Below the title are two input fields: 'Enter new password' with a placeholder 'New Password' and a red circle with the number '1' next to it; and 'Retype New Password' with a placeholder 'Confirm your Password' and a red circle with the number '2' next to it. At the bottom of the form are two buttons: a green 'SAVE' button with a red circle and the number '4' next to it, and a white 'CANCEL' button with a red circle and the number '3' next to it.

1. **Enter your new password:**
 - The user will enter their new password, Password should include a minimum of 8 characters long, includes at least one (1) uppercase letter, one (1) number, and one (1) special character.
2. **Retype your new password:**
 - The password should match the same as the entered new password.
3. **Click to cancel:**
 - Clicking “Cancel” will cancel the process
4. **Click to save:**
 - Clicking “Save” will save your password and will send you back to the login screen

Change Password

A. Will go to the dashboard

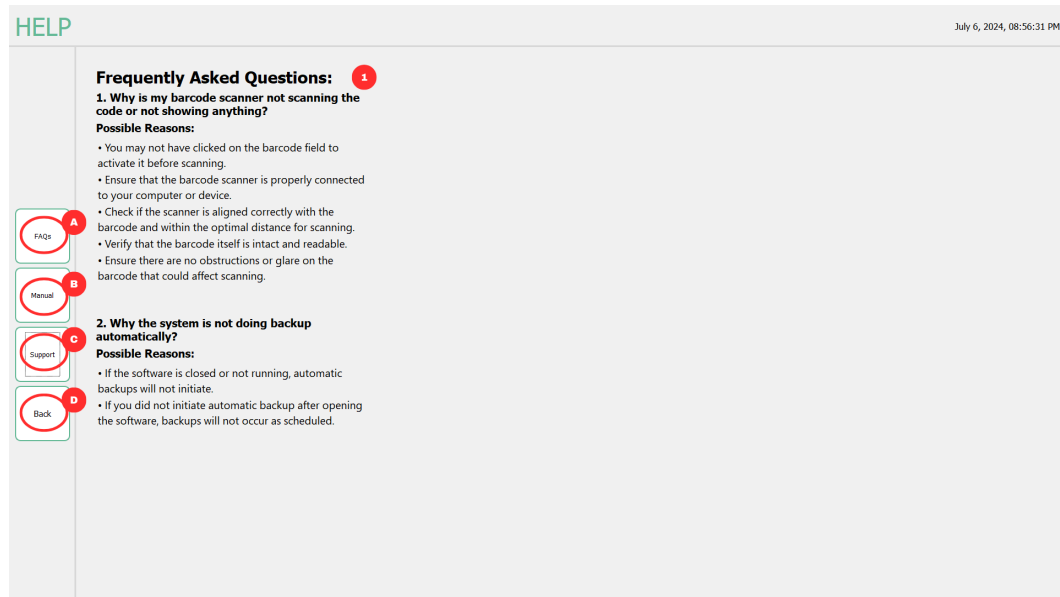

The screenshot shows a web form titled 'CHANGE PASSWORD' with a header bar containing the title and a timestamp 'July 6, 2024, 09:05:41 PM'. The form is divided into two main sections. The left section contains a 'Username' field with the value 'LV0101' and a 'Back' button. The right section contains three input fields: 'Enter new password', 'Enter Your Current Password', and 'Retype New Password'. Each of these fields has a red circle with a number (1, 2, and 3 respectively) next to it. Below the input fields are two buttons: 'SAVE' and 'CANCEL', each with a red circle and a number (5 and 6 respectively). A red circle with the letter 'A' is also present next to the 'Back' button.

1. **Display username:**
 - This will display the user's username
2. **Enter current password:**
 - Enter your current password before inputting your new password
3. **Enter your new password:**
 - The user will enter their new password, Password should include a minimum of 8 characters long, includes at least one (1) uppercase letter, one (1) number, and one (1) special character.
4. **Retype your new password:**
 - The password should match the same as the entered new password.
5. **Click to save:**
 - Clicking "Save" will save your password
6. **Click to cancel:**
 - Clicking "Cancel" will cancel the process

 - a. You can change the frequency of the report to generate.
2. **Open Save Location**
 - a. If you want to see the save location or the folder location of the trend analysis report.
3. **Select Save Location**
 - a. If you want to set a location for the system to generate the report.
4. **Generate Report**
 - a. The button to generate the report.
5. **Display Report**
 - a. The visual aid generated by the system will be displayed here.

Backup and Restore

The screenshot shows a web interface titled "MAINTENANCE" with a timestamp "July 1, 2024, 06:00:51 PM". It features two main sections: "Automatic Backup" and "Restore Backup".

Automatic Backup Section:

- 1. Backup Frequency: A dropdown menu set to "hourly".
- 2. Backup Location: A text input field containing "C:/@Backup".
- 3. View Backup Folder: A button next to the Backup Location field.
- 4. Backup Now: A green button.

Restore Backup Section:

- 5. A text input field containing "June 28, 2024 09:55 AM".
- 6. Restore: A green button.

Left Sidebar:

- A. Add User: A button.
- B. Edit User: A button.
- C. Backup: A button.
- D. Back: A button.

Additional text in the interface includes "Last Backup at: June 28, 2024 09:55 AM" and "Select Backup Location" above the Backup Now button.

Backup Configuration

1. Backup Location:

- The backup files will be stored in a designated folder on your root drive (e.g., `C:/`).

- Create a folder there, and you will be good to go.

2. Backup Frequency:

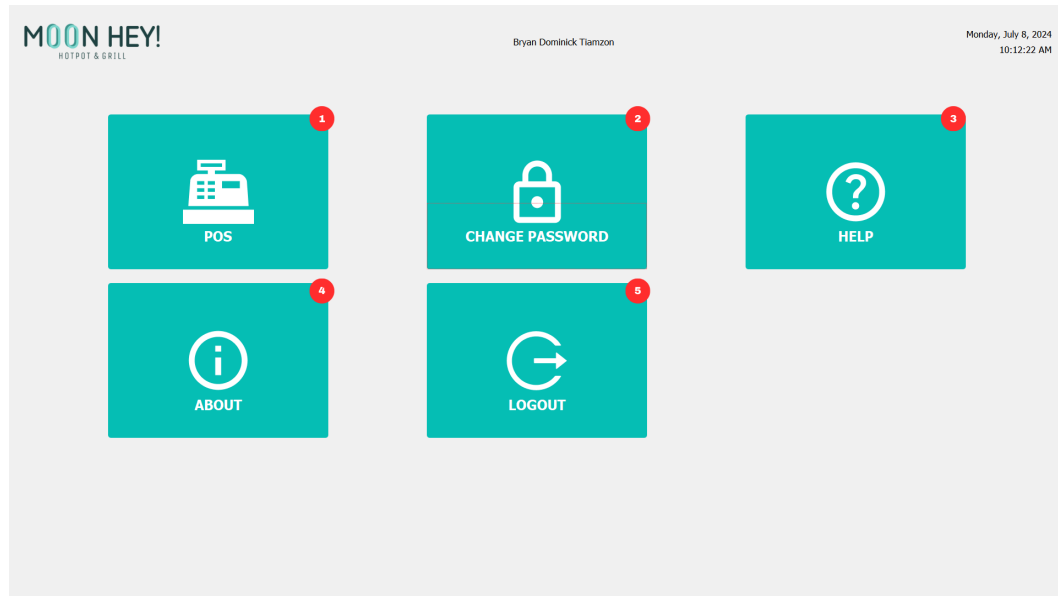

- The system supports automatic backups with the following frequencies:
 - Hourly
 - Daily
 - Weekly
- Choose your preferred backup frequency based on your needs.
- Note: The software must be running continuously for automatic backups to function.

Restore Process

3. You can restore your database from any backup file you have.

Software Guide (Employee) Cashier

Employee (Cashier) Dashboard

5. POS Module:

- This is where the order creation takes place

6. Change Password Module:

- This is where you can change password

7. Help Module:

- This is where you can view FAQs, User manual and Contact support

8. About Module:

- This is where you view the company information and developers credits

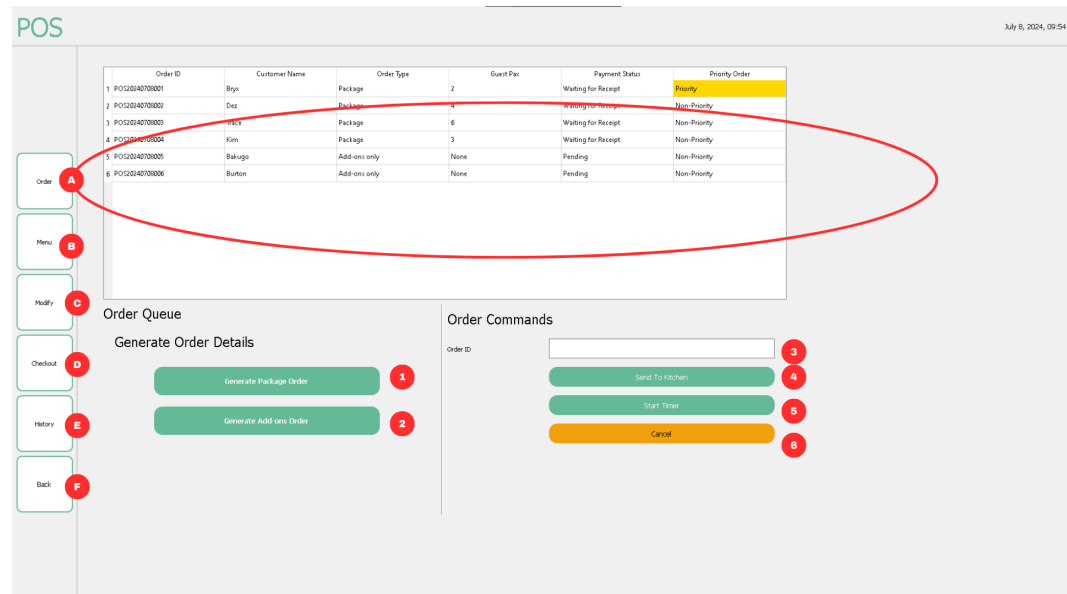

9. Logout:

- This is where where you can logout from your account

Order Creation (POS)

- A. Navigate to order screen
- B. Navigate to product menu selection screen
- C. Navigate to package modification screen
- D. Navigate to checkout screen

- E. Navigate to History of Transaction
- F. Navigate to back (Admin Dashboard)

1. **Generate Package Order**
 - a. Navigate to dialog to create package order type
2. **Generate Add-ons Order**
 - a. Navigate to dialog to create add-ons only order type
3. **Order ID (Input)**
 - a. This is where user inputs the Order ID manually or selected from table.
4. **Send to Kitchen**
 - a. This is where a receipt of order details will be sent to the kitchen.
5. **Start Timer**
 - a. This is the button where the the order starts a timer to indicate its time left.
6. **Cancel Order**
 - a. This is the button where the order (Package) can cancel if its not been sent to kitchen or Add-ons only order type with products already in its details.
7. **Order Details Table**
 - a. You can see where the generated order ID queue along with the order details.

1. **Exit the Dialog**
 - a. Exit the dialog to return to the order generation screen
2. **Customer name input**
 - a. This is where the user will input the name of the user.
3. **Guest pax input**
 - a. This is where the user inputs the number of guest pax.
4. **Package Type Drop Down**
 - a. This is where different types of packages the restaurant offers.
5. **Soup Variation Drop Down**
 - a. This is where different soup variations the restaurant offers.
6. **Priority**
 - a. This is the radio button where the user chooses if the customer is priority (PWD/Elder) or not.
7. **Generate Order**
 - a. This is the button that saves all the input from the user.
8. **Discard**
 - a. This is the button that discards and clears the fields input from the user.

1. **Exit the Dialog**
 - a. Exit the dialog to return to the order generation screen
2. **Order Type (Add-ons only text)**
 - a. This is where it indicates that this order generates for add-ons only.
3. **Customer name input**
 - a. This is where user inputs the customer name.
4. **Priority**
 - a. This is the radio button where the user choose if the customer is priority (PWD/Elder) or not.
5. **Generate Order**
 - a. This is the button that saves all the input from the user.
6. **Discard**
 - a. This is the button that discards and clears the fields input from the user.

The screenshot shows a dialog box titled "Order Receipt" with a standard Windows-style title bar (minimize, maximize, close buttons). The dialog contains the following text:

MOON HEY HOTPOT AND GRILL
RESTAURANT
OWNED BY: MOON HEY INC.
848-A BANAWA STREET SIENNA
QUEZON CITY - 00002 NCR,
SECOND DISTRICT
BILL

1. Search Field

- This is where it can search the matched results from the history of orders.

Table - This is where the transaction history has been displayed.

Barcode Usage

Equipment

1. **Barcode Scanner:**

- Any barcode scanner can be used with this system.

Scanning a Product

1. **Preparation:**

- Ensure your barcode scanner is properly connected to your computer.
- Open the application and navigate to the relevant screen where you can scan products.

2. **Scanning Process:**

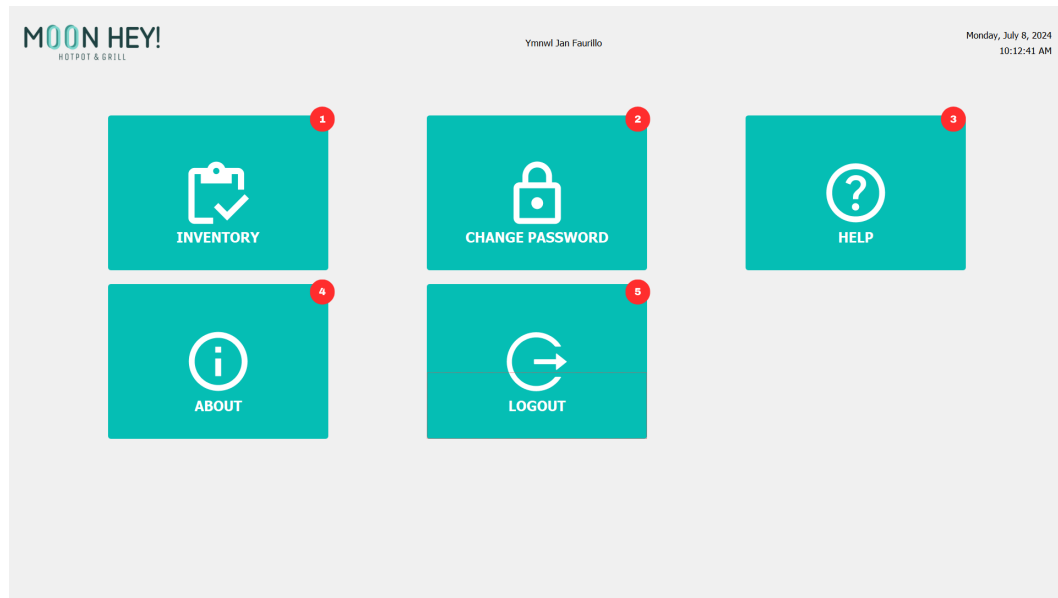

- Click on the barcode text field in the application to focus on the input field.
- Use the barcode scanner to scan the product's barcode.
- The product information will be automatically populated in the application.

Notes

- Ensure the barcode scanner is correctly aligned with the barcode on the product for a successful scan.
- If the scan fails, try adjusting the distance and angle of the scanner relative to the barcode.
- Make sure the barcode text field is always selected before scanning a product or receipt.
